Sarasota County's Public Works Department is inviting the community to participate in the second Bicycle and Pedestrian Master Plan virtual workshop at 11:00am Tuesday, Aug. 4.

"The Bicycle and Pedestrian Master Plan focuses on road connections and mobility options and is updated to reflect transportation trends in the community," said Patrick Lui, Bicycle, Pedestrian and Trails coordinator. "Community members are encouraged to participate in the workshop to share input on the consultant's findings and have a voice in the development of our community's mobility system."

The updated master plan is expected to be completed later this fall. The first workshop, held in December 2019, focused on plan development and information gathering. The second workshop planned for August 4th will present consultant Tindale Oliver's initial draft findings.

For more information on the Bicycle and Pedestrian Master Plan, or the public workshops, call the Sarasota County Contact Center at 941-861-5000.
